WARDROBE SYSTEM

estate

WARDROBE SYSTEM

durable & stylish

The Estate wardrobe system features a traditional design, featuring a grip stile handle. Incorporated into the frame, the handle runs vertically along the entire edge of the wardrobe door.

Estate wardrobes can be found in homes all over Australia, giving years of trouble free service. Estate profiles are available in a range of finishes and colours.

Estate wardrobes can be adapted to suit different infill panels from 4mm glass up to 10mm plasterboard.

hardware

The wheels and guides used for the Estate system are of exceptional quality. Tracking wheels are made from hard wearing nylon mounted on a ball bearing axle. Pivotech designed simplicity will provide many years of trouble free service.

- systems run on large Ø42mm convex nylon ball bearing rollers ensuring continuous quiet operation
- an open designed roller allows for ease of cleaning and a reduction in dust accumulation
- easily adjust doors with the height setting mechanism integrated into the roller's steel chassis

Estate sizes & capacity

- can be made to measure to suit many different installation configurations
- manufactured to comply with the relevant requirements in Australian Standards AS1288 and/or AS2208
- door weights up to 50kgs can be achieved
